ALLOCATION PROPOSAL (ERCAP) APPLICATION DEADLINES

Award Type	ERCAP Submission Open	ERCAP Submission Deadline	Award Decision	Allocation Period
Startup and Education	Ongoing	Ongoing	Within 3 weeks of applying	18 months from award (but must be renewed for the next allocation year)
Production (DOE awarded) for the rest of allocation year 2015	Ongoing	Ongoing	Within 4 weeks of applying (pending sufficient DOE reserves of time)	through January 11, 2016
All continuing projects must be renewed for 2016. New projects may apply after the deadline.	August 4, 2015	September 21, 2015	December 11, 2015	January 12, 2016 - January 9, 2017

Who can apply? Anyone who's work supports the DOE Office of Science Missions

ALLOCATIONS OVERVIEW AND ELIGIBILITY

Allocations Overview

Most allocations of NERSC computer time and archival storage are awarded by DOE and managed by NERSC. There is no monetary charge to the project that receives the award. The awarded research groups are given project accounts, known as *repositories* (or *repos*), with a given amount of computing hours and an archival storage allocation. Resource usage (computer time or archival storage) is charged against the repository, like a withdrawal from a bank account. Once the account is exhausted, users can no longer charge against that account.

NERSC supports several allocation programs:

TABLE OF CONTENTS

1. [Allocations Overview](#)
2. [Eligibility](#)

8. [High Energy Physics \(HEP\) Mission](#)
9. [Nuclear Physics \(NP\) Mission](#)
10. [Small Business Innovation Research \(SBIR\) Mission](#)

Allocation Type	% of DOE Allocation	Description
DOE Production	80%	Awards are made by DOE program managers in the six offices of science and SBIR. Applicants need to be part of a research project funded by the DOE Office of Science or show that their work meets the DOE mission.
ALCC	10%	ASCR Leadership Computing Challenge: a DOE program run by ASCR to promote areas of interest to DOE. See the ALCC web page .
NERSC Director's Reserve	10%	This is for projects selected by the NERSC Director.
Education, Startup	N/A	Small awards made by NERSC from NERSC overhead time.

APPLY FOR YOUR FIRST NERSC ALLOCATION

Initial Steps Needed to Apply for Your First NERSC Allocation

All work done at NERSC must be within the DOE Office of Science mission. See the Mission descriptions for each office at [Allocations Overview and Eligibility](#).

Prospective Principal Investigators without a NERSC login need to fill out two forms:

1. The online [ERCAP Access Request Form](#). If you wish to designate another person to fill out the request form you may designate a "PI Proxy" on this form.
2. Complete and submit the online [Computer User Agreement form](#).

Once we receive your agreement form and activate your account, you will receive an email with a link that will allow you to set your initial password. That link will expire if not used within 72 hours. If the link has expired, you will need to call NERSC Account Support at 1-800-666-3772 menu 2, or 510-486-8612, to obtain a temporary password. You can call at any time, 24 x 7, and somebody will be here to assist you.

Startup Allocations

Many new NERSC projects begin with a **Startup** allocation, particularly if they are new to HPC or are not yet ready to run production codes on thousands of CPU cores. Startup awards are limited to 50,000 MPP hours (Cray XT4 equivalent hours) and are good for up to 18 months.

Office of Science

https://nim.ner-sc.gov/newpi.php

ERCAP Access Request Form for new PIs and PI Proxies

If you are completely new to NERSC and wish to make an allocation request as a new Principal Investigator (PI), please select and complete the appropriate boxes below. If you already have a NERSC user name and wish to become a PI, please [log into NIM](#), click on "ERCAP requests" in the NIM Main Menu, and follow the subsequent instructions.

You also have the option of nominating a PI Proxy. A PI Proxy can fill out a request on behalf of a PI. In order to add a Proxy, please fill out the optional Proxy information section below.

When you are done, please click on Submit Request at the bottom of the page.

You must also fill out and submit the [NERSC Computer User Agreement Form](#).

After the Account Support Office has received both this form and the Computer User Agreement Form they will contact you about your NIM login name and password.

NERSC Electronic Computer User Agreement form

The following is a list of general computer use policies and security rules that apply to individual users of NERSC. Further information on NERSC security policies and practices can be found on the [NERSC Computer Security](#) page. Principal Investigators are responsible for implementing these policies and procedures in their organization and ensuring that users fulfill their responsibilities.

User Accountability

Users are accountable for their actions. Violations of policy may result in applicable administrative or legal sanctions.

Resource Use

Resources provided by NERSC are to be used only for activities authorized by the Department of Energy (DOE) or the NERSC Director. The use of NERSC resources for personal or private benefit is prohibited. NERSC resources are provided to users without any warranty. NERSC will not be held liable in the event of any system failure or loss of data. NERSC resources cannot be used for any military or defense end use or application, or to facilitate any transaction that would otherwise violate U.S. export control regulations.

Passwords and Usernames

A user identifier known as a username and password are required of all users. Passwords must be changed at NERSC's request. All passwords must conform to NERSC guidelines, which are found in [Getting Help/passwords](#). Passwords must not be shared with any other person and must be changed as soon as possible after an unacceptable exposure, suspected compromise or by direction of a NERSC staff member.

Notification

Users must notify NERSC immediately when they become aware that any of the accounts used to access NERSC have been compromised. Users should promptly inform NERSC of any changes in their contact information.

Software and Data

Attestation

I have read this NERSC Computer User Agreement and understand and accept my responsibilities in the use of NERSC resources.

Your Initials:

I attest that I am not a citizen of Cuba, Iran, Syria or Sudan who will be using NERSC resources while residing and/or working in one of these countries.

Your Initials:

Can't read it? [Refresh the image](#)

[Start a Request for a new Project](#)

If you wish to continue a project to the next year allocation year (2016), click on the "Renew" link next to the project's title above.

Many informational fields will be carried forward into your 2016 request, so you will not have to retype them.

Use the '[Start a Request for a new Project](#)' link for **NEW** projects only.

Starting a new request will require a new user list (*i.e.* add existing users to the new project/repository, *etc.*) and filling in ALL the information fields.

What type of request would you like to start ?

A new request for the remainder of 2015 (ends Jan 13, 2016)

A new request for 2016 (starts Jan 14, 2016)

Start new ERCAP request

Test Project

Save Resources Requested Q15-18 You MUST click the "Save" button here or at the bottom in order to save your work before selecting another tab.

15. Computational Resources

Resource	Alloc Type	Repo	Hours Used 2015	Hours Requested 2016
15.1 MPP Systems: Edison & Cori	Startup	m2247	0	50,000

15.4 Genepool (Joint Genome Institute researchers only)

Are you pre-authorized to use Genepool? Yes No

15.7 Project Directories

Project Directory Name	Storage Used 2015	Storage Requested 2016
m2247	0	1.0 TiB

Resource	Alloc Type	Repo	SRUs Used 2015	SRUs Requested 2016
15.8 Archival Storage	Startup	m2247	0	1,000

Show SRU Calculator

How much HPSS archival storage do you need? Terabytes

15.9 Scratch Space

How much scratch space will your project need? Terabytes

HPSS CHARGING

NERSC uses Storage Resource Units (SRUs) to help manage HPSS storage. The goal is to provide a balanced computing environment with appropriate amounts of storage and adequate bandwidth to keep the compute engines fed with data. Performance and usage tracking allows NERSC to anticipate demand and maintain a responsive storage environment. Storage management also recognizes storage as a distinct resource in support of an increasing amount of data intensive computing. Storage management and the quota system are intended to encourage efficient usage by the user community.

SRU Management

SRUs are reported and managed through the NERSC Information Management (NIM) system. If a user is out of SRUs in all of their HPSS repositories that user will be restricted so that they can no longer write data to HPSS (although they will continue to be able to read data).

Users can check their HPSS SRU balances by logging in to the [NIM](#) and clicking on their "Account Usage" tab.

Calculating a User's SRUs

Three measures of use are used in computing SRUs:

1. Number of files stored (files)
2. GB of space used in the archive (space)
3. GB of I/O transferred (I/O).

Office of Science

Hide SRU Calculator

How much HPSS archival storage do you need?

10 Terabytes

15.9 Scratch Space

How much scratch space will your project need?

20 Terabytes

Annual estimates:

Number of Files: 0

GB of space used in the archive (space): 0

GB of I/O transferred (I/O): 0

SRU CALCULATOR

About SRUs

You can use this form to estimate your mass storage charges (in SRUs).

SRUs are calculated on a daily basis. Enter your estimated daily average number of files and data storage and your yearly estimate of data transferred to and from the HPSS system. Click on *Calculate* and your SRU charge will appear in the light blue boxes.

Enter average daily values for the allocation year

Number of files*:

Amount of data stored*: GB

Enter total HPSS I/O for the allocation year

Data transferred: GB

This is your estimated SRU charge

Average per month: SRUs

Per Year: SRUs

Resource	Alloc Type	Repo	SRUs Used 2015	SRUs Requested 2016
15.8 Archival Storage	Startup	m2247	0	<input type="text"/>
				Show SRU Calculator
How much HPSS archival storage do you need?				<input type="text"/> Terabytes
15.9 Scratch Space				
How much scratch space will your project need?				<input type="text"/> Terabytes

16. Brief Justification for Resources Requested Above

(4000 character maximum)

0 characters entered. : 4000 characters remaining.

17. Events or Deadlines Affecting Computational Needs Through the Year

Please describe any time(s) this coming allocation year that you expect will spike your demand for resources.

(4000 character maximum)

0 characters entered. : 4000 characters remaining.

18. Real-Time Computing Needs

Does your project require real-time computing resources?

(For example does your project require immediate access to computing resources because it is connected to a live experiment.)

Yes No

Save Resources Requested Q15-18

18. Real-Time Computing Needs

Does your project require real-time computing resources?

(For example does your project require immediate access to computing resources because it is connected to a live experiment.)

Yes No

• If you answer Yes above, please explain:

(4000 character maximum)

0 characters entered. : 4000 characters remaining.

Save Data & Analytics Q21-22 You MUST click the "Save" button here or at the bottom in order to save your work before selecting another tab.

21. Data & Analytics

21.1 Which I/O formats/libraries, databases, workflow tools, and data transfer tools does your work require at NERSC?

- Fireworks Globus Online GridFTP HDF5
 MongoDB MySQL NetCDF PostgreSQL
 Raw Binary ROOT SciDB Swift
 Text (ASCII, CSV) Tigres

Other:

21.2 Which imaging tools, data analytics frameworks, and data visualization tools does your work require at NERSC?

- Fiji MATLAB OMERO Paraview
 Python R Language ROOT Spark
 UV-CDAT VisIt VMD

Other:

22. Data Sharing

22.1 Do you need to share data or access NERSC compute resources over the web? If so, describe any special resources you may need, such as software, data storage, and/or bandwidth requirements.

(4000 character maximum)

0 characters entered. : 4000 characters remaining.

How much data do you expect your project to move to NERSC from external sources? Terabytes
