Retiring SL53?

• Like to retire SL53 at some point
• Who still uses it?
• What is missing from SL6x?
Topics from the Users
• Old PDSF homes are mounted read only
• Need to be removed eventually (no date yet)
• Any reference to “/u/” or “/home” will fail once this happens
• Please replace these with “$HOME” or /global/homes/…. 
• The entire SL53 software stack is located on old PDSF homes
  – Must be relocated
  – Don’t expect any issues, but please let us know if something stops working
