U-Hunting

- Old PDSF homes are mounted read only
- Need to be removed eventually (no date yet)
- Any reference to “/u/” or “/home” will fail once this happens
- Please replace these with “$HOME” or /global/homes/....
- The entire SL53 software stack is located on old PDSF homes
  - Must be relocated
  - Don’t expect any issues, but please let us know if something stops working
