

PDSF User Meeting

March 4, 2014

Lisa Gerhardt

Utilization

Past Outages

- **2/5/14 (10 – 11 pm): Project outage**
- **2/11/14: NERSC system wide outage**
- **2/21/14 (10 – 11 am): Load Balancer outage**

Planned Outages

- **None**

Other Topics from PDSF Staff

- **New login nodes are online**
 - Accessed via load balancer at `pdsf.nersc.gov`
 - Individual access is available via `pdsf6`, `pdsf7`, `pdsf8`. However, if you log directly into a node, you may get kicked off in the event of maintenance
 - Can still get to old login nodes with `ssh pdsf[1-4]`
 - Please move over any crons and update any scripts
- **Global Scratch is mounted on all new nodes**
 - **PURGED every 12 weeks**
 - Default quota of 20 TB and 4 M inodes
 - Only available on the Mendel compute and login nodes
 - Must run with `-l gscratchio=1` to get steered to the right nodes

Other Topics from PDSF Staff Con't

- **NERSC home directory testing**
 - Homes warranty extended until NERSC move
 - One possibility is to switch to NERSC homes
 - Available for testing now
 - Looking for brave volunteers for testing
