

# PDSF User Meeting

July 7, 2015

Lisa Gerhardt

# Utilization

# Past Outages

---

- **6/3/15 (1/2 hour): NX unavailable**
- **7/4/15 (6 hours): System wide outage due to global common issues**
- **7/5/15 (1 hour): eliza11 unavailable**

# Planned Outages

---

- **None**

# Project Stale File Handle

- **Occasionally jobs are failing when accessing project with “Stale file handle” errors**
  - Only legacy nodes (i.e. named pc\*\*\*\*)
  - Jobs go into “Eqw” state
- **We’re investigating the cause and working to find a solution**
- **In the meantime**
  - `qstat -j <job_id>` will show reason for Eqw
  - `qmod -cj <job_id>` will clear the error and resubmit the job

# Eliza Retirement

- Only eliza3, eliza11, and eliza18 will come to the hill
- Remaining elizas will become read only on August 1<sup>st</sup> and be shut off September 30<sup>th</sup>
- Please start moving your data to HPSS now!!

# Scientific Linux 7 Is On PDSF

---

- **Can access with**  
export CHOS=sl71 (or setenv CHOS sl71)  
chos
- **Still under development, but mostly user ready**
- **Anything missing? [consult@nerisc.gov](mailto:consult@nerisc.gov)**

# Topics from the Users

---
