

PDSF User Meeting

August 4, 2015

Lisa Gerhardt

Utilization

Past Outages

- **7/9/15 (1 hour): eliza11 degraded**
- **7/10/15 (4 hours): eliza11 unavailable**
- **7/29/15 (2 hours): globus unavailable**

Planned Outages

- **None**

Eliza Retirement

- Only eliza3, eliza11, and eliza18 will come to the hill
- Remaining elizas are read only as of today and will be shut off September 30th
- Please start moving your data to HPSS now!!

NERSC moves that may effect you

- **Global scratch is being retired. It will become read only on September 30th and be shut off on October 14th**
- **Carver retires Sept. 30**
- **Homes may be slow during the migration (no outage) in October**
- **Project will have a several day outage for final syncing in October**
- **Projecta will have a 7 – 10 day outage while being moved in October**
- **Edison will be offline for 6 weeks in late November – early December**
- **HPSS will stay at NERSC connected through 400 Gb/s link**

Scientific Linux 7 Is On PDSF

- **Can access with**
export CHOS=sl71 (or setenv CHOS sl71)
chos
- **Still under development, but mostly user ready**
- **Anything missing? consult@nerisc.gov**
